“Deelan and Dhara From our first contact,  
through the  
planning process and all the way through  
execution, we were very impressed. The personal  
touches were  
great - coming home for the planning and  
finishing off with the final product and show and  
tell at our home again. We always felt at ease.  
The photos were magical, captured our good  
sides, and provide long lasting memories. This felt  
like a family touch, and the  
regular communication put us all at ease. I would  
recommend Dee.slr Photography to capture your  
family functions and maintain long lasting  
memories.  
Thanks to you both. Can't wait till our next  
function!”

# ENGAGEMENT

expert advice for an effortless engagement shoot

Engagement sessions are the ideal way to get over wedding nerves. They not only allow you to meet us prior and get comfortable with one another and be in tune with the photography experience.

Locations around Brisbane are sometimes hidden gems, from little known parks to well established venues we are flexible and can photograph anywhere you choose!

### **Tip 01 / Be Comfortable**

An engagement shoot is your chance to be yourself, without the stress of the wedding day around you and the time frames, it gives you some time with the person you love to get some really beautiful moments. So dress comfortably and be ready to smile!

### **Tip 02 / Get dressed, not stressed!**

Without the timeframes around or the glitz and glamour there is no stress except turning up. Wear something that complements you both, you can even match if you wanted to!

Turn up, and don't forget your beautiful smiles at home. If you aren't used to being in front of the camera then this is the perfect opportunity for you to practice!

### **Tip 03 / Make a day of it**

Plan your shoot around the things you love. For example if you love the beach, plan the shoot as a day trip to the beach. This allows you to take full advantage of the day and be who you are in the moment!

### **Tip 04 / Timing**

The best time of the day is golden hour, the last hour before sunset or the hour right before sunrise. This creates not only beautiful lighting conditions but also beautiful images.

### **Tip 05 / Have an idea, or don't!**

If this is your first shoot, don't be scared, we are here to help. We will guide you and pose you to flatter who you are and showcase the love between you both.

We are also very accommodating and if you've got an idea of some photos you'd really want done then let us know ahead of time and we will do our best to incorporate it into the shoot.

“Deelan & Dhara are an amazing and passionate photography team, they makes things so easy for you. Right from our initial conversation to us receiving the photographs their communication was commendable. They truly know what they’re doing. I would highly recommend them to anyone looking to capture some memories!!”

## YOUR DAY

our tips for a stress-free,  
relaxed wedding day

Wedding bells are ringing! The excitement, the nerves, all that planning and coordinating - all comes together today. Try to relax and enjoy the day as best you can, it'll be one of the best of your life.

Take some moments to breathe, take it all in and embrace anything that comes your way on the day. Not everything will go as planned, and that's nothing bad.

You've done the hard yards getting here and working your butt off to get it to come together. So enjoy your day , don't forget to be present in the moment and prepare to become one.

AND DONT FORGET TO SMILE!

### **Tip 01 / Don't forget to smile**

Amongst everything going on you should not forget to smile! Smile as much as you can, you never know when your photo is being taken! We aim to be as inconspicuous as possible and to get beautiful candid photos of you with all your friends and family so smile your biggest smile!

### **Tip 02 / Get Hands on**

Hands need things to do, think what to do with your hands. Fiddling with your dress or hair can spoil your pictures and make you look nervous. Try to keep your hands hanging loosely by your sides, otherwise hold a clutch bag that complements your dress or hang onto that bouquet!

### **Tip 03 / Eat your heart out**

Eat something, it's a long day! But also don't forget to stay hydrated too. It's a marathon of a day and like a good marathon runner you need to stay hydrated and keep nourished.

### **Tip 04 / Enjoy your time!**

The photoshoot is your time away from the hustle and bustle of the day, your special time away with your beloved. Enjoy your time at the shoot as a chance to relax a little and breathe. We aim to provide guidance and put you at ease during your photoshoot with us.

### **Tip 05 / Relaaaxxx**

You've planned this day down to a T, in some peoples cases, the whole alphabet. Sure some things won't go to plan, some won't even work, and that's OKAY! Not every plan will go as intended and sometimes this is out of your control, so don't stress about it and remember tip 01.

A photograph of a man and a woman embracing on a wooden pier. The woman is wearing a white coat and the man is wearing a light blue shirt. They are standing on a wooden platform with a metal railing. In the background, there are trees and a body of water. The scene is lit with warm, golden light, suggesting late afternoon or early morning. The text 'VENDORS' is overlaid in large white letters, and 'our friends in the business' is overlaid in smaller white letters below it.

## VENDORS

Over the years we have had the pleasure of working with a wide variety of vendors and services. As such we feel it is unfair to name just a handful in this guide. Be it a florist for beautiful bouquets, a celebrant to tie the knot, a dj to set the mood, make up artists to make you look your best and then some, videographers to get every detail or even just a wedding planner to take the stress of the day off your head reach out!

We are more than happy to put you in contact with one of our many wonderful friends

# FAQS

expertly answered

## Is there a limit to how many photos I get back?

We aim to normally capture every little detail we can, because sometimes they make for the most beautiful memories. We will provide back all images that pass our quality check, all expertly edited for you and ready to print.

On average, our smaller weddings is about 150+ images, while our larger weddings can be upward 400+ images returned back to you.

## Are your packages customisable?

Yes, of course! Every wedding is unique and we are more than accomodating in adjusting the packages to suit. Just send through details and we can make a more personalised experience for you.

## How long till I get my photos back?

We aim to have your photos back to you within 4 weeks of the ceremony date. This subject to other factors as well such as how many other shoots we have in tandem and how busy we are.

## What is your style of photography?

We provide a beautiful mixture of photography styles across a wedding day. We capture mostly candid shots of the day in a documentary format of all the details we feel will bring you the most joy in years to come.

During the shoot however we aim to also make you comfortable, look your best and get photos of you and your family that would look amazing in an art gallery as well as your home.

## What if it rains on the day?

We can't control the weather, yet. On the night before and the day of the wedding we normally will check a number of weather forecasts to see what the chances are for rain on the day.

If it does happen to be even a slight chance of rain we are able to provide white umbrellas which we are able to incorporate into the photoshoot. We will also adapt to the setting and utilise undercover locations as much as possible to avoid damaging your beautiful attire.

## How do I secure my booking?

In order to secure your wedding day booking with us you need to pay a 50% deposit with the remainder of the amount due before the wedding date. This can be split up if need be, just ask us.

We also offer credit card payment options if required.

## What is your COVID & Rescheduling policy?

If for unforeseen circumstances your wedding needs to be delayed/postponed we are more than happy to move the booking at no extra cost to you granted that we are available for that new date.

## How long do you back up our photos for?

We keep both RAW (unedited) and the professionally edited copies of your photos for up to 5 years. These are kept in both secure cloud and offline storage as a matter of data preservation.

Should you ever lose your copies of the edited images we are more than happy to provide them to you digitally once more at no extra cost.
